

5 Functional Requirements & 2 Non-Functional Requirements

Problem Statement #64 — Disaster Relief Supply & Volunteer Coordinator

ID	Type	Requirement
FR-001	Functional	Manage shelter supply requests for essential items such as water, blankets, and medical kits.
FR-002	Functional	Check incoming shelter supply requests against available supplies in the central warehouse.
FR-003	Functional	Prioritize shelter supply requests based on urgency and criticality.
FR-004	Functional	Assign relief volunteers to tasks based on their registered skills and availability.
FR-005	Functional	Track the status of relief vehicle deliveries from dispatch to delivery.
NFR-001	Non-Functional — Performance & Security	Operate with low network bandwidth consumption and maintain secure access to disaster-relief information.
NFR-002	Non-Functional — Availability	Support offline caching of essential GIS and disaster-mapping data during temporary network outages.
